7.4 cu. ft. Capacity Front Load Electric Woolmark Certified Dryer

Shown with optional pedestal

The perfect blend of efficient drying power & style

Sleek stainless steel styling and high performance features deliver real drying power for your laundry room. The Samsung front loading DV431 dryer gives you a large 7.4 cu. ft. Capacity with stainless steel drum to prevent rust or discoloration. Forward-thinking design features offer advanced operating settings including a Mix Load Bell that notifies you when certain garments are dry so that they can be removed to allow more efficient drying of the remaining items. In addition, a Filter Check Indicator makes sure you empty the filter when it's full for increased drying efficiency, and a 24 Hour delay start gets the work done even when you're not there. Energy efficient Samsung dryers use the power of steam to reduce ironing, eliminate wrinkles and remove odours, and the Woolmark Certified cycle gently cleans wool items without the risk of shrinking. The Samsung DV431 dryer offers you a higher level of performance with its sophisticated technology that dries your clothes faster and more efficiently.

SAMSUNG

7.4 cu. ft. Capacity Front Load Electric Woolmark Certified Dryer

PERFORMANCE

Woolmark Certified for more gentle handling
Introducing the world's first electric dryer with Woolmark Certified wool cycle, that gently cleans your favourite wool garments without the risk of shrinking or tattering, ensuring extra care without requiring extra work.

Steam Refresh

Infuses clothes with steam to reduce wrinkles, remove odours, and refresh clothing

Sensor Dry

Detects the moisture level in the load and adjusts the drying time to save time and money

Stainless Steel Drum

Prevents discolouration and rusting

Drying Rack

Provides tumble-free drying for items such as sneakers, sweaters or stuffed animals

Wrinkle Prevent Option

Intermittently tumbles clothes at the end of the drying cycle to help prevent wrinkles from setting in

Mixed Load Bell

Instead of waiting until all clothes are dry, the Mixed Load Bell notifies you that certain garments can be taken out early while letting others continue to dry. Heavier and tougher clothes that require extra drying time then stay in the machine to be dried further, and quicker
